PRELIMINARY AMENDMENT

Sir:

Please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend claims 5 and 6, and add new claims 7 and 8 as follows:

5 -5. (Amended) A mobile phone for multiple SIM cards as claimed in claim 3 [or 4], wherein, said interface card is provided symmetrically at areas near the tailing end of said telephonic apparatus with two grooves, said grooves each is provided with a spring leaf and an inclined guide piece, so that said interface card is adapted to sliding along the surfaces of said inclined guide piece taking advantage of said slide rails at two mutually opposite edges of the telephonic apparatus; finally, said interface card is locked and positioned by dropping to a plurality of abutting surfaces to prevent said slide rails from releasing in a backward direction, thus locking of said interface card is achieved.
